PPH-1000: Single Line pH and Temp Controller

This new offering from HM Digital, gives the user a single line pH controller ideal for any industrial or commercial systems needing to control pH levels. This will work especially well in

SPECIFICATIONS:

- Ideal for controlling pH in commercial applications
- 4-20mA output signal
- Digital calibration
- On-screen temperature display
- Fully adjustable relay control with
- 2 set points (High and Low) maintain desired range
- Includes ¾" sensor probe

PRODUCT DESCRIPTION

- Range: 0.01 – 14.00 pH
- Accuracy: ±0.5% F.S.
- Resolution: 0.01 pH / 0.1°C (0.1°F)
- ATC: Yes (1 – 60˚C)
- Calibration: Digital to any point
- Set Point: On-screen buttons
- Relay Controls: Two (upper and lower limit)
- Alarm: Optional setting
- Display: Bright 5/8" L.E.D. Display
- Probes: 3/4" Electrode, 3 m (9.8 ft.) cable
- Power Source: AC 110V / 220V
